

Mock Trials!!!

The mock trials were great. I had so much fun. The mock trials were a great help. So we wouldn't have to read from a book that was boring and would have way too much information. The mock trials made learning about government fun and exciting. Maybe you guys should make more. My favorite mock trial was Spongebob Square pants. There might be one thing that you guys should change. The parts need to be equal. The mock trials made me think about joining a mock trial team in high school. Well thanks so much again for the mock trials.
