

Dear Representative Richardson,

Thank you so much for teaching us the Legislative Branch. Sure we had papers to learn about it but, of course you explained it much better. I can't believe how much it takes to make one law. Also if you think about it we have a lot of laws, so that must have took a long time. The tour was amazing and it was much bigger than I thought. My favorite thing was the sewer seal. It was very creative, and that's my sort of thing.

Sincerely,

Annie
