Dear Assemblyman Richardson,

Thank you so much for taking a part of your time to talk to us. I loved how you talked about how we could be an assemblyman or woman like you.

One thing that I learned was how our state flag was one of not very many flags that's two sided. I also like that our seal has the heart-like shape outside of the pioneer.

It's interesting about the walk of the flags and the model of the liberty bell. I loved the gold man. I can't believe that the gold man weighs 8 eight point five tons (seventeen thousand pounds).

Sincerely,  
Della
